4 Outdoorsmen's Ministries Expedition 2005

Little Garden River Ontario, Canada.

Friday September 23 to Saturday, October 1

We are looking forward to this year's trip and expect to have a wonderful time salmon fishing and fellowshiping together. The Last 4 Expeditions trips were incredible!! Hundreds of fish were caught including king salmon up to 35-lb. We anticipate this year's trip to be as good or even better for the September salmon run. This is a time to enjoy the creation that God has so blessed us with and a time to share those experiences with family and friends. Don't mistake this for just a fishing trip, at the evening devotion we open God's word and are challenged to make application in our life. We have had men bring friends or family who have come to know Christ in the Bush of Canada!
